app.js

```
5
6 const APP_PORT = 3000; // TODO: read this from environment config instead of hardcoding
7
8 function main() {
9   // TODO: replace placeholder implementation
10  const message = "app is running (placeholder)";
11  console.log(message);
12  console.log("listening on port " + APP_PORT);
13 }
14
15 main();
16
```

Problems Output Debug Console Terminal Ports
